## Angry birds dream blast how many levels

ANGRY BIRDS DREAM BLAST - Android game with release date Rovio Company 01/23/2019. Genre Game: Jigsaw Puzzle. In the article, we summarize pumping tips from top players, developers answers to gamers questions, beginner guides to the official site and our secrets to passing the game. Attention, the article is updated periodically, look at the Wise Geek site more often. Content Angry Birds Dream Blast: Beginner's Guide How to Play Angry Birds Dream Blast? Angry Birds Dream Blast is a puzzle game to pass levels that you need to meet certain goals. The game is based on the laws of physics – this means that balls and other objects will always fall from top to bottom. Level goals vary. You may need to collect a certain number of balls, lower the egg from the top of the level to the bottom, burst the balls with pigs and more! Collect balls of the same color together and touch them to remove them from the level. If you manage to remove four balls or more at a time, an explosion gain will appear on the field. By combining amplifications with each other, you can increase your power! Each level is given a number of moves. If you use all movements, but do not complete the level, you will lose a life. You have five lives in total. When the number of lives decreases to zero, you have to wait until lives are restored, or buy them for gold coins. What types of blocks are found in the game? During the game, you will meet blocks of different types that will prevent you from reaching the goal or yourself will be the level target. Knowing how to get rid of them, it will be much easier to win! Glass blocks are the most fragile. They can break down by making ball combinations side by side or using power-ups and bonuses. Stone blocks are much stronger – they can be removed only with the help of power-ups and bonuses. To get rid of jelly blocks, you need to remove the balls next to them of the same color as jelly. Or you can use bonuses and upgrades. What are magic balls? Magic balls are a special type of ball. When combined or a reinforcing bird enters them, they automatically destroy the objects. What are eggs for? Eggs are one of the targets available in levels. To collect the eggs, they must be lowered to the bottom of the level. To do this, remove the balls and other obstacles on your way. What are balls with pigs? Balls with pigs are one of the objectives of the level. They are subject only to power-ups and bonuses. When you hit on a large pig, it is divided into two means, which take the place of two random balls. Medium pigs are similarly divided into two small pigs. When he hits some pork, he bursts out. Each exposure to pigs counts towards an objective level. How do pork locks work? Pig castles are one of the obstacles in levels dream. They come in two types: with numbers and a key hole. To open a castle with a number, you must remove balls of the same color as Castle. The number indicates how many balls should be removed. As soon as the number on the lock decreases to zero, it will open! Locks with keys work even easier: as soon as the key touches the lock, it will open. It remains only to clear the path of the key. What is a nightmare cloud? A nightmare cloud is one of the targets on the level. He hides behind the balls, and you have to get rid of it. To do this, simply remove the balls from the field or use amplifications. What are chain balls? Chain balls cannot be used in combinations until the string is removed. The only way to get rid of the chain is to act on the ball with a booster bird or another bonus. As soon as the chain is removed, the ball will become ordinary, and can be used in combinations! What are paint minds? By making ball combinations close to the paint mind, you can open it! After that, the paint will change the color of 3 random balls on the playing field. As a rule, paint minds are needed to pass the level at which they are. What is bo slingshot? A colored wheel is a stationary object that can repaint balls, acting in the same way as a paint mind. To start the turntable, double act with a reinforcing bird. After the first exposure, you will start spinning, and after the second - to disperse your balls, randomly repainting everything else! Angry Birds Dream Blast: Team Guide How does chat work? All teams have a chat in which teammates can communicate with each other! To start a conversation, simply click the Chat button, type a message, and then click Finish. All the players on the team will see your message, so don't forget the courtesy! If someone in the chat behaves defiantly or inappropriately, you can block their messages. Just tap the player's chat message or name in the team members list, and then click Block. Messages from this player will no longer be displayed. If you accidentally blocked someone, you can unlock them by finding their name in the list of team members and clicking Unlock. You can also file a complaint against a player who behaves inappropriately. To do this, simply click on the inappropriate chat message and select the Complaint option. How to join a team? You can join a team at player level 4. To join a team, simply open the Team tab! There you can see teams you can join. Or use the search button to find another command. If your computer has a site, then you can join it by clicking the Join button. If the team is locked in, you will have to wait for your leader's approval! How to leave the team? To leave your team, follow these steps: Open the Team tab; Click My Team; Select Info and click the Leave button. Even if exits the computer, you can take advantage of the lives stored in your mail. However, you can no longer receive new lives or participate in team events! How to create a team? To create a team, you must first leave the current team (if you are a member of it). Then your team by following these steps: Open the Team section; Click the Create button; Enter your team data: name, icon, and description; Choose whether your computer will be open or closed. Anyone can join an open team, and joining a closed team occurs only with the approval of the leader – that is, you! Specify the minimum level of a player to join if you want players to join a team above a certain level. If you leave the value 0, then the minimum level of the player will not be required for entry. Click the Create button at the bottom of the page. You can create a computer for 150 coins! What is Help? Help is an opportunity to help a teammate collect free lives. Each player who has submitted a life request can be helped once for each request. When a player receives 5 lives requested, their request bar will no longer appear in the chat. For each life given to another player, you get 1 gold coin. In the My Team section, you can see how many times a player on your team helped his teammates. How to send life? Click the Help button to send a free life to a teammate who needs lives. For every life sent to teammates, you will receive 1 coin! How to change your computer name or icon? Unfortunately, the name and icon of the created team cannot be changed. However, you can change the team description, team type (open or closed) and minimum level of players. How to invite friends to the team? Tell your friends your team's name or ID to find it in the search bar on the Team tab and they can enter! When you search for a computer using its ID, you must type the # sign before the ID. There is no way to directly invite players to the team in the game yet. How to remove a player from a team? You can remove players from the team from which you are a leader. To do this, follow these steps: Click the Team button; Click My Team; Tap the name of the player; Click the Exclude button. What is an open and closed team? An open team means that at any time any player who fits the minimum level can join them. In a closed team, the leader himself accepts or rejects the players' requests for entry. My leader is inactive. How to remove or change a leader? A team leader cannot be changed or removed until he or she wants to leave. Therefore, it is recommended to join a new team or create your own! Angry Birds Dream Blast: Coins and Purchases What are Gold Coins and How to Get Them? Gold coins are the currency for which you can buy extra moves, lives and bonuses at Angry Birds Dream Blast. Coins are bought in a separate store. To go, click the gold coin counter at the top of the screen. This coin can also be obtained from chests issued in number of levels or increase the level of a player. How to recover a lost or lost purchase? If your purchase never appeared in the game or disappeared due to an error, be sure to contact the support! You will be happy to help you with any shopping issues! Angry Birds Dream Blast: Explosion; Power-ups and Bonuses How to create booster birds and how do they work? Playing Dream Blast, you can create three power-ups: Reda, Chuck and Bomb. To create a red, tap 4 or more balls of the same color side by side. The more balls there are, the greater the gain. By combining amplifiers you can increase your power! By combining a pair of reds, a Chuck is created, the size of which will be as the larger of the two reds. Similarly, from two Chucks you can create a bomb. Reinforcements are ideal for immediately removing a large number of balls! What are bonuses? Bonuses are special items that can be purchased with gold coins or obtained from chests. Each of them has a unique property. When using bonuses, movements are not spent. What is good meteor? The meteor bonus can be purchased with gold coins or get from reward chests. Use it to fly balls in a round area. To use the meteor bonus, first tap its icon at the bottom of the screen, and then tap the section of the level you want to exploit. What is bo slingshot? Slingshot can be used to remove a ball from the field. Just tap its icon at the bottom of the screen during the game, and then select the ball you want to remove. What is Bo Shuffle? Mix the swap balls to the level. To use this bonus, first tap its icon at the bottom of the screen, and then any part of the level. And all the balls will change place! But at the same time, other level elements (amplifications, eggs, pigs and chain balls) will remain in place. Angry Birds Dream Blast: Walkthrough What is a Stella Store? In this event, Stella will open her shop where she will sell fantastic products! While the event is happening, Cherries will appear in the levels. Use power-ups or make combinations alongside Cherries to collect them. Cherries collected are saved only after the successful completion of the level! These cherries can be exchanged at the Stella store for various items. If you buy all the items in the store, Stella will give you an extra bonus for loyalty! The event will end when the timer expires or all items in the store run out, whichever comes first. If the timer disappears, you'll have one last chance to swap the remaining cherries before the end of the event. What is a team event? The team event is a joint event in which it is played along with other team members. Together, go through as many levels as possible and achieve all your goals in order to open chest with rewards! To receive a team award, you must participate by completing at least one level per event. In addition, if you leave the team during the event, you will not be able to in the event and you will not receive rewards. What's the good thing about the Victory series? The Victory Series event offers rewards for successfully passing several levels in a row, without a single failure at any level. The longer the win series, the better the rewards. Completing a level for The first leg of a series of victories, and start the next level with free momentum. If you pass the next level, you will receive up to two amplifications at the beginning of the next level. Finally, go through the third level to complete the last stage of a series of victories and start the next level with three power-ups. If you continue the win series after three levels, you will start each subsequent level with three power-ups. But if you fail at any of the levels, you will interrupt the series of victories, and you will have to start over! What are Red and Chuck's tests? Red and Chuck tests are events in which players compete in the number of power-ups generated (Redov and Chuck, respectively). Each of the amplifications created at the past level counts. If he fails to collect the level, not all of the reds and Chuckies that appear in it will be counted. At the end of the event, players with more power-ups created will receive rewards. What is a level race? Level Race is an event available for all players! To compete in it, just go through the levels of the game. All past levels, including those that are available at the peak of Dreams (meaning you can participate in two events at the same time), are counted. Players are divided into groups of 50 people, each of whom has its own list of leaders. Any completed level contributes a point. When time runs out on the event timer, players with the highest score will receive rewards! What is the top of dreams? Dream Peak is a competitive league that opens after completing all the usual levels. Reaching the top of Dream, you will have access to a random selection of levels. Each completed level will bring you a prize. It will also be included in the leaderboard, the place where it depends on the number of prizes received. Each season of Dream Peak lasts a week, after which the best players with the most prizes are awarded. Then a new season begins, and in it, to reopen the peak of Dream, you will have to go through all the new levels. Angry Birds Dream Blast: Customize your game as you rename the profile or icon? To change the profile name or icon, click the profile banner on the main screen. To change the icon, tap the current icon, and then select a new icon from the list. To rename the profile, tap the current name and enter a new one. When you make the desired changes, don't forget to click the Save button! How to contact technical support? Support is always ready to help. To contact her, you must send a request. Before you do this, check it out according to this article – what if there is already an answer to your question? How to connect the game to Facebook? You can connect your Facebook account to your game settings. Tap the gear in the top right corner of the , and then click the Connect button with the Facebook icon. You'll be prompted to sign in to your Facebook account. As soon as you connect the game to your Facebook account, your gameplay will be tied to it. If you want to reinstall the game or play it on another device, you can restore progress by connecting to the same account. If you decide to manually disconnect the game from your Facebook account, your progress will no longer be saved, and you won't be able to restore it by reinstalling the game.
